

Spelling-sound regularity

A word has a regular pronunciation if its pronunciation can be **derived entirely from the grapho-phonemic conversion rules**, which are based on the statistically most plausible pronunciation.

IRREGULAR

VILLE

PINT

HAVE

CHEF

REGULAR

FILLE, QUILLE, BILLE

MINT, TINT ..

GAVE, SAVE, RAVE

CHOP, CHALLENGE

Spelling-sound regularity effect

Words with a non regular pronunciation are read more slowly than those with a regular one

PDP : A side effect of frequency effect

DRC : A conflict of output between the two routes

CDP+ : A combination of both
