

Code chunk options - error, message, warning

error = TRUE

- ▶ if an error occurs, it will display the error message in the finished document and continue knitting. (The FALSE default value make it stop the document knitting when an error occurs)

message = FALSE

- ▶ prevents messages that are generated by code from appearing in the finished file.

warning = FALSE

- ▶ prevents warnings that are generated by code from appearing in the finished.

+ see the many options in the Rmarkdown reference document
