

Most common chunk options - summary

Option	Default value		Code evaluated	Code appear in the finished document	Results appear in the finished document
eval	TRUE	IF set to FALSE:	No	No	No
include	TRUE	IF set to FALSE:	Yes	No	No
echo	TRUE	IF set to FALSE:	Yes	No	Yes

Code chunk options - error, message, warning

error = TRUE

- ▶ if an error occurs, it will display the error message in the finished document and continue knitting. (The FALSE default value make it stop the document knitting when an error occurs)

message = FALSE

- ▶ prevents messages that are generated by code from appearing in the finished file.

warning = FALSE

- ▶ prevents warnings that are generated by code from appearing in the finished.
