The good-enough approach by Feirreira suggests that sentence understanding often relies on semantic processing and knowledge of the world rather than on a semantic composition based on detailed syntactic structure.

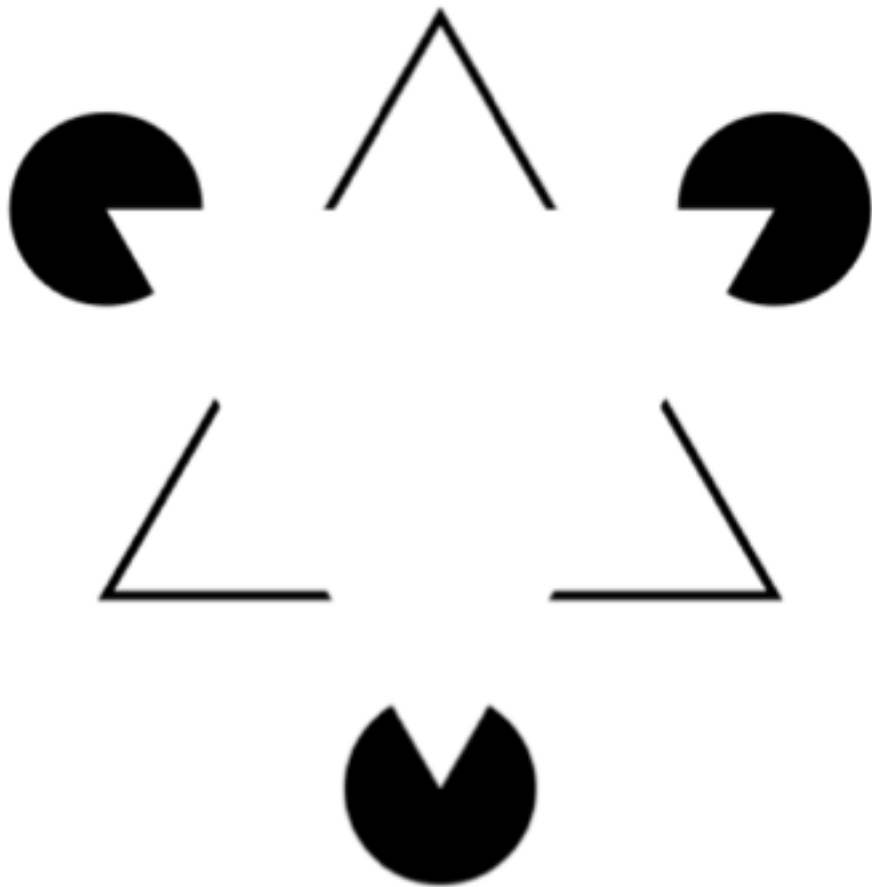

Ferreira, 2009;
Pylkkänen, 2019

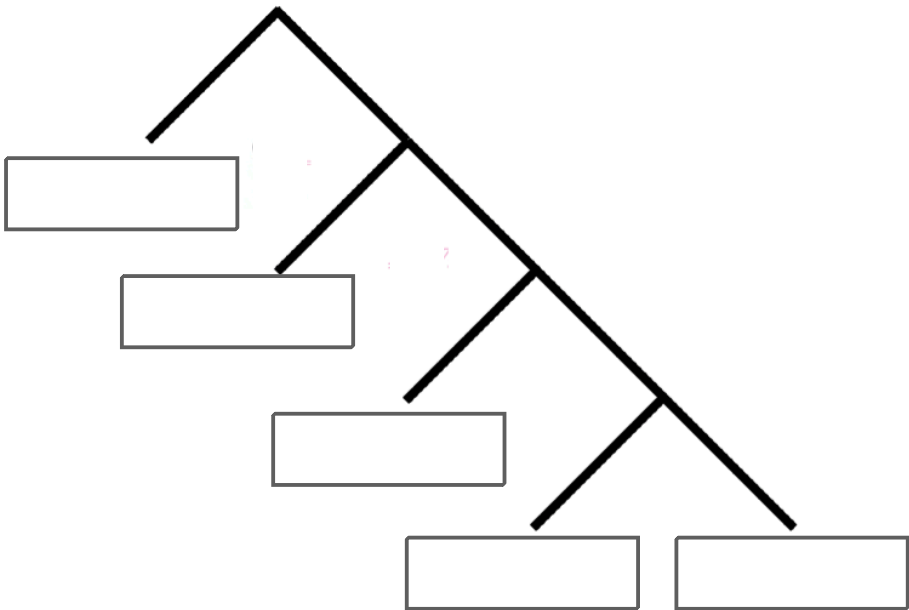

“syntaxpros and antipros”

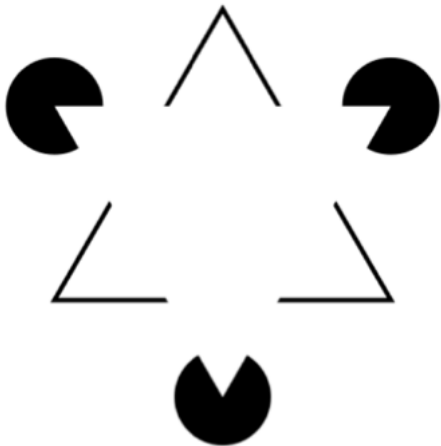

Crain & Steadman (1985, p 325)

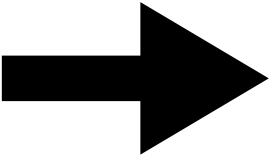

Extend to semantic processes previous studies
presenting correlates of syntactic structures (Brennan &
Hale, 2019, Ding et al. 2016, Nelson et al. 2017)
