

Anatomy of a code chunk

A code chunk starts and ends with three back ticks. An r in braces after the first three back ticks indicates that it will be R language

```
```{r}
 Chunk Name: Unnamed chunk
 Output:
 (Use document default)
 Show warnings
 paste("Hello", "Lab!")
 Show messages
 Use paged tables
 Use custom figure size
 1 1 1
 ? Chunk options
 Apply
 RStudio
 Run all the previous chunks
 Go to file/function
 Run the code chunk
Discover_ERPscope.Rmd

↓ □ □ □ | ☐ □ Knit on Save | ♣BC □ □ Knit → ∅ →
 🎾 - | ↑ 🕕 | ➡ Run - | 🤣 - | 🗏
 12
```

Chunk Name: Unnamed chunk

Width (inches): Default

Height (inches): 6

? Chunk options

Use paged Show nothing (run code)

Use custo Show nothing (don't run code)

Output:

(Use document default)

(Use document default)

Show code and output

## To create a new R code chunk

To create a new chunk:
