Groundhog

In One Word: Making R Reproducible

http://groundhogr.com/using/

- `groundhog.library()`

  - `groundhog.library("rio", "2020-03-01")`

- `pkgs <- c("rio","metafor")`

- `groundhog.library(pkgs, "2020-03-01")`

Groundhog

- Very well, so I just have to use groundhog?

  - Well, you might also need Rtools

    - Why?

      - Because, older packages might also need an older version of R !
